## **Help us to plan the future of Calgary's thriving main streets**

### **Main Streets – 33 and 34 Avenues S.W.**

We're moving towards our goal to plan, invest in and create main streets where businesses can thrive and create a destination that all Calgarians can enjoy. Over the past year, we've been working with community members to understand the character of these main streets and to plan for their future.

This fall, we will have updates to share on two phases of your community's Main Street project:

- Land Use Planning
- Streetscape Master Plan

Our project teams will be sharing proposed land use changes for the main street area and revealing a streetscape concept design. We are looking for feedback from Calgarians who live, shop or commute in the 33 and 34 Avenues S.W. main street area.

This is a collaborative process, where conversations are valuable. Join us on either September 22 or 25, 2018 to chat with our project team, provide input and learn more about how you can help shape the future of your community.
